JOSHUA COMPANION   LEAD SOFTWARE ENGINEER

TLDR*

Lead Software Engineer who turns coffee into code and ideas into products that thousands of people actually use. 4+ years building everything from AI-powered Chrome extensions to veterinary telemedicine platforms. I lead teams, ship fast, and somehow keep 99%+ uptime while doing it. Full-stack enthusiast with a passion for solving real problems with elegant solutions.

WORK EXPERIENCE

Lead Engineer (2023-Present)

PouncerAI Inc. | Austin, TX

Built PouncerAI, a Chrome extension that uses AI to automate Upwork proposals, serving thousands of users with 99%+ uptime. Designed AI-powered content generation using OpenAI API and led end-to-end product development from concept to deployment.

Lead Full Stack Engineer (November 2023-2024)

Ecordia Studios | Austin, TX

Led development of 6+ production applications including HubaVet (veterinary telemedicine platform) with web app, mobile app, and Supabase backend. Built HIPAA-compliant research platforms and social media applications. Managed cross-functional teams of 3+ developers, delivering projects on time and within scope.

Senior Front-End Engineer (March 2022-October 2023)

Volcon | Round Rock, TX

Sole developer for Volcon's complete website and digital presence. Built scalable Node.js backend infrastructure and integrated Stripe payment processing for vehicle preorders. Implemented modern development workflows that improved team productivity by 40%.

EDUCATIONAL HISTORY

Front End Web Development & Software Engineering Bootcamp (August 2020)

Team Treehouse | Credential ID: 21550198

Comprehensive full-stack program covering JavaScript, React, Node.js, and modern web development. Built foundation in both frontend and backend technologies with focus on responsive design and UX.

ACHIEVEMENTS

01 Successfully launched PouncerAI Chrome extension with thousands of active users and maintained 99%+ uptime.

02 Led development of 6+ production applications across diverse industries including healthcare, social media, and e-commerce.

03 Managed and mentored development teams of up to 3 engineers, delivering projects on time and within scope.

04 Implemented AI-powered automation solutions that significantly improved user workflow efficiency.
